

“ I was just diagnosed with prostate cancer. I don't know where to start. - *Jim* ”

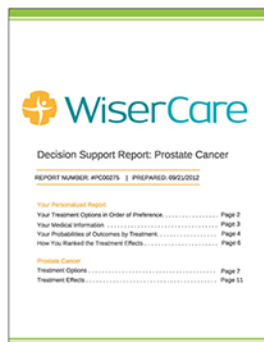

Match Your Treatment to Your Diagnosis & Personal Values

WiserCare helps you think through what is most important to you so that your personal values can be matched with the best treatment option for you.

See All Your Treatment Options In One Place

Instantly incorporating your medical test results and your personal preferences, WiserCare gives you a highly personalized report that includes all of your evidence-based treatment options, your personal values and preferences regarding your treatment options, and specific details for you about the success rates of each treatment and associated side effects.

Powerful Shared Decision Making Between You & Your Physician

WiserCare can help you make good use of the often limited time you have with your physician or specialist(s). You can use the WiserCare report to talk to your medical team about what you might expect, need, and hope for from treatment.
